Data & Privacy Policy

World Registration Systems Ltd operate this online registration service on behalf of the event organisers. All data collected through this site will be passed to the organisers at which point the privacy policy of the event organiser comes into effect.

World Registration Systems Ltd only pass your information to the event organiser and no other Third Party, unless with your prior consent. World Registration Systems Ltd will hold your data on file for a period of up to 3 months after the close of the event, after which time it will be deleted from our systems and put beyond recovery.

Badge Policy:

As a visitor to this event, you understand that if you voluntarily choose to have your badge scanned by an exhibitor, you are giving permission for your data to be passed to the company who scanned your badge who may contact you about their services and products. This is effectively the same as giving a business card.

At this point, the privacy policy of the exhibitor comes into effect and you are entitled to request a copy of this from that company at any time.

Being scanned upon entry to the event and at seminar theatres will not result your data passed on to any third parties and is for analytical and safety purposes only. This data is held by World Registration Systems Ltd on behalf of the event organiser.

Yours sincerely

Julian Temple
Director
